

# Klindat™

## Cloud-based EDC for clinical trials

Klindat™ is a next-generation electronic Case Report Form (eCRF) for the pharmaceutical, biotech & medical device industries

## Key Features

### **SIMPLE**

Clear design, intuitive, very easy to use

### **FAST**

Quick data entry and navigation between forms

### **SECURE**

Access control and SSL encryption

### **ACCESSIBLE**

Fully web-based, no installations required

### **FLEXIBLE**

Unlimited sites and users in trials of any size

### **RELIABLE**

Daily data backups, seamless service

### **CUSTOMIZABLE**

Personalized logo, URL, colors, forms and fields

### **COMPATIBLE**

Works in modern devices, browsers and operating systems

### **POWERFUL**

Built-in monitoring, data management and reporting tools

### **COMPLIANT**

Meets HIPAA, GCP and 21 CFR Part 11 requirements

### **CUSTOMER-ORIENTED**

Tailor-designed for client needs, close support (email/phone)

### **AFFORDABLE**

Monthly flat rate (SaaS) adjusted to study size and duration

# Powerful Data Management & Monitoring

## DATA ENTRY

Fast data collection via a user-friendly web interface

## COMPLETION STATUS

Review of data completion status through visual indicators

## DATA CLEANING

Edit checks, automatic and manual queries to detect discrepancies

## MONITORING

Source data verification (SDV) and remote reviews with integrated buttons

## DATA PROTECTION

Access control mechanisms to ensure data integrity

## AUDIT TRAIL

Tracking of changes including author, date, time and reason of modification

## STUDY REPORTING

Automatic clinical trial reports with key metrics

## MEDICAL CODING

Safety data (e.g. AE/SAE) classification and dictionaries

## DATA EXPORTS

Generation of datasets (e.g. CSV) for statistical analysis

## Discover a new way to manage your trial

Streamlined electronic data capture for the clinical research industry
