

# Full service CRO for clinical trial management

## OUR FOCUS

Sofpromed is a full service contract research organization (CRO) specialized in the integral management of phase I-IV clinical trials and observational studies. We manage clinical studies in diverse therapeutic areas with particular specialization in oncology. We have experience in both adult and pediatric trials, including solid tumors (sarcomas, bone tumors, gastrointestinal, ovarian, and breast cancer), hematologic malignancies (leukemia, lymphomas, and myeloma), and rare cancers, among others.
